

Galesburg Salvation Army Appreciates NAEIR

The Salvation Army of Know County claims valuable assistance comes to them through NAEIR products. "About 90% of our programs would be seriously curtailed without NAEIR product," the officers report. They are extremely pleased to have this membership.

Uses of supplies: daily maintenance of the property, making shelves and other building improvements, paper products for serving food during children and adult programming, prizes for youth in their various scouting clubs, material to help people repair their houses.

Seasonally, items are much appreciated for the Shopping Spree when community children give gifts to family members and friends. And weekly, the women's scrapbooking program could not operate without the supplies from NAEIR. Though never sold, sometimes material is given to another Salvation Army Corp in exchange for products it has in abundance.

Leigh Franklin Nygard
Chairman, Advisory Board

Small Company, Big Heart

Getz Fire Equipment has used NAEIR for many years and the experience is one that will continue in the future. I usually get a "no pressure" call from a NAEIR representative every six months shortly after our physical inventory count asking if we have any items to donate. Being a smaller company we don't always have items to give, but occasionally we have first aid items that are discontinued and are no longer needed. NAEIR representatives help to make the time and process involved short and simple with easy instructions to follow.

This gives us the opportunity to eliminate items and clear room on our shelves, allowing space for new items in our product line. It's gratifying to know these products will be given to those in need and put to use.
